

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
WASHINGTON, D.C. 20460

OFFICE OF CHEMICAL SAFETY
AND POLLUTION PREVENTION

December 17, 2020

MEMORANDUM

SUBJECT: Authorization to extend the public comment period for the 1,3-Dichloropropene Proposed Interim Registration Review Decision by 30 days

FROM: Kevin Costello
Chief, Risk Management and Implementation Branch II (RMIB II)
Pesticide Re-evaluation Division

THRU: Elissa Reaves, Ph.D., Acting Director
Pesticide Re-evaluation Division
Office of Pesticide Programs

A handwritten signature in blue ink, appearing to read "Mary Elissa Reaves", is positioned to the right of the "THRU:" line.

This memorandum authorizes a 30-day extension of the comment period on the proposed interim registration review decision for 1,3-Dichloropropene, which is currently available for public comment in the registration review docket for this case. The documents are accessible at <https://www.regulations.gov>; the docket ID number is EPA-HQ-OPP-2013-0154.

On October 23, 2020, a Federal Register Notice was published announcing the availability and opening of a 60-day public comment period on the proposed interim registration review decision (PID) and supporting documents for 1,3-Dichloropropene, as part of the registration review process required under the Federal Insecticide, Fungicide, and Rodenticide Act. The deadline for submitting comments on these documents was announced as December 22, 2020, which was 60 days from the date that the Federal Register Notice published. On December 16, 2020, EPA was made aware of a technical issue preventing access to the PID. As a result, the Agency has noted a need for more time to prepare public comments in response to these documents.

After consideration of the request, EPA is extending the comment period for the 1,3-Dichloropropene Proposed Interim Registration Review Decision by 30 days. The original closing date was December 22, 2020. The new closing date for the 1,3-Dichloropropene public comment period is January 21, 2021. The 1,3-Dichloropropene case, docket number, and contact information are listed below.

Registration Review Case Name and Number	Docket ID Number	Chemical Review Manager and Contact Information
1,3-Dichloropropene Case 0328	EPA-HQ-OPP-2013-0154	Michelle Nolan Nolan.michelle@epa.gov

Commenters should identify the docket ID for 1,3-Dichloropropene and submit the comments via the Federal eRulemaking Portal at <http://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information or other information for which disclosure is restricted by statute. Please be aware that the Agency is currently not accepting paper submissions because of COVID-19.

Additional instructions on commenting and visiting the docket are available at <https://www.epa.gov/dockets>.
