Subject: [EXTERNAL] FWD: CTAC Request

Hello Tom,

I am following up and requesting a [CTAC](#) copy, PDF is fine, for all facilities for James Wakeley so I can ensure we have a copy in permitting. If you have sent a copy to ENF, please send me a copy as well since COVID-19 has hindered us from having access to their documents.

Thanks,

Subject: RE: [EXTERNAL] Draft Wonsits CS Permit and Draft Island CS Permit Question

Tom,

The requested information is in reference to your recent operator name change to MPLX including facility contact, responsible official, and addresses. The 2017 letter that you attached does not include that information. Specifically, you have requested these changes in Part 71 draft permits public comments for Wonsits Valley, Island, and Red Wash 24B which differed from the information in your attachment.

Please provide us with Form INFO and CTAC (as indicated in Lo Rao's earlier 2/18/20 email), listed specifically for each affected facilities that are operated by MPLX and/or have a contact or address change. This will decrease the amount of public comments related to owner, operator, and addresses, as well as being utilized for our internal databases. We appreciate you assisting us in being able to increase the efficiency of our permitting process. If you would like help with this please do not hesitate to email or call me.

Thanks for your help,

Colin C. Schwartz
