MEMORANDUM

SUBJECT: Determination of Attainment by the Attainment Date for the Salt Lake City, Utah and Provo, Utah 2006 24-Hour PM_{2.5} Nonattainment Areas

Date: June 26, 2020

FROM: Crystal Ostigaard, Environmental Scientist, EPA Region 8

TO: Docket #EPA-R08-OAR-2020-0002

This memorandum provides an update to the Determination of Attainment by the Attainment Date for the Salt Lake City, Utah and Provo, Utah 2006 24-Hour PM_{2.5} Nonattainment Area proposed rule published on June 8, 2020. Due to late additions to the material published in this edition of the Federal Register, the location of the proposed rule was shifted from *Federal Register* page **34673** to **page 35033**. No other changes have been made to the proposed rule that was published for review in this docket. Since the public has already begun to comment on the proposed rule as published in this docket, the EPA has retained in the docket the pre-publication version of the proposed rule that begins with *Federal Register* page 34673 should remain. But to ensure that the public can find the proposed rule in the Federal Register as published and can accurately cite to it, we are including this memorandum in the docket, along with the final version of the *Federal Register* proposed rule starting with page number 35033. The correct citation for this action is **85 FR 35033**.

This is a unique situation and the EPA and the OFR do not believe that this issue will occur in the future.
